Self-Motivation | Communication | Problem Solving

Teamwork | Time Management | Leadership

PERSONAL PROJECTS

Millionaire Quiz App (07/2023 - Present)
- **Description**: Developed a dynamic and engaging web application using React.js, HTML, CSS, and JavaScript, inspired by the popular TV show "Who Wants to Be a Millionaire.
- **Technology Used:** HTML | CSS | Javascript | React Js | Audio API
- **Outcome:** The Millionaire Quiz App" project showcases my proficiency in front-end web development using modern web technologies. It demonstrates my ability to create interactive and visually appealing web applications while incorporating third-party APIs to enhance the user experience. This project also highlights my teamwork and problem-solving skills in a collaborative development environment.

Personal Assistant with Multi-Tasking Capabilities (03/2023 - Present)
- **Description:** I developed a highly versatile and interactive personal assistant designed to assist users with various tasks. This intelligent personal assistant possesses a range of features to enhance user experience and productivity.
- **Technology Used:** Python | OOPs | Audio API | SQLite | CLI
- **Outcome:** The "Personal Assistant" project demonstrated the ability to leverage technology for user-focused solutions, blending technical expertise and creativity to create an efficient and user-friendly tool.

WORK EXPERIENCE

Intern
CDAC
09/2023 - Present   *Mohali, India*

CERTIFICATES

FULL STACK WEB DEVELOPMEMENT WITH PYTHON (08/2022 - 11/2022)
The "FULL STACK WEB DEVELOPMENT WITH PYTHON" course, authorized by iNeuron. By the end of the course, Had a strong understanding of both front-end and back-end web development, proficient in Python and Python web frameworks.
